PROJECTS / OPEN-SOURCE

CardioCare | Link   *Html, Css, Javascript and Bootstrap*
The purposed website is made by me and my two team-mates as we participated in a Hackathon. It is to get regular and affordable heart checkup and help in emergency ,near by you. It has features like booking appointment ,checking bed, ambulance and doctor availability, & read blogs.

PCOD Anaylsis and Detection | Link   *Machine learning and Python.*
This was our(group) mini-project in Pre-final Year.
The main objective of this project is detecting PCOD and comparing the factors of PCOD in healthy women and women suffering from PCOD.
